AMONG THE BROKERS.

The West Granite Boom—Stocks Sold—and Prices Obtained To-Day.

Stocks generally took an upward turn to-day with large sales, but toward the close of trading prices dropped several points.

The sharp rise in West Granite was the marked feature of the day's transactions. The advance began at a late hour yesterday afternoon, and a few hundred shares of the stock sold at 80. On the street this morning quotations were much lower, 300 shares changing hands at 67½, and 700 shares bringing 65½. The call opened at 70, at which

figure 400 shares changed hands and the price rapidly rose; 200 shares sold at 72½; at 76½ the transfers amounted to 800 shares; 500 brought 77½; at 80 the sales aggregated 1,100 shares and 81½ was paid for 500, the highest price reached since the recent decline. The price to the turning point, as from it the stock gradually dropped; 300 shares changed hands at 80; at 78½ the transfers amounted to 1,600 shares and 76½ was paid for 1,500 shares. For some time no further sales were made, but a bid of 73 for 500 was accepted, and again started the stock on its down-

The sudden rise in this stock after the unmerciful hammering it had so recently undergone, took the street by surprise and started an unusually large number of rumors. The best authenticated of these appeared to be that the advance was due to the heavy purchases made by the drug firm of Myers & Bros. The presence of Mr. Augustus

Myers on the floor this morning, the first instance in which a non-member has been admitted within the rail during business hours, was regarded as confirmatory of the truth of these reports. The members of the firm have long been heavily interested in West Granite, having paid over \$3 for some of the stock and in the past said never to have wavered in their faith in the property. It is rumored that they have come to the front and offered to secure the notes held in Montana, thus obviating the necessity of a sale. In fact few now believe

that the property will be sold or even bonded. A private telegram was received from Helena, stating that the company were quietly making preparations to move the machinery from the Rattlesnake to the Elizabeth, and that sinking would be commenced at an early date. The advance in price began late yesterday afternoon, the stock apparently being determined to keep up its record of changes in quoted value late in the day, which earned it the title of the "Dark Lantern Mine."

Frisco, although no news was received at the office, was in strong demand and rose sharply. The first sale was one of 200 shares at 51¼, followed by transfers aggregating over 1,500 shares at 50, after which the stock was 48¾ bid, 50 asked. No further trading was done until the time for closing had almost arrived, when a sale of 100 shares at 51¼ sent the stock up with great rapidity, in spite of heavy transfers; 52¼ was bid, and 1,700 shares changed hands at this

figure; at 55 the sales aggregated 700 shares, 56½ was paid for 500 shares, and 200 brought 57½. The bidding then dropped to 56¼, at which the market closed, over 1,200 shares changing hands at this price.

Jumbo, whose quotations have been merely formal for some weeks, exhibited most unwanted activity. The call opened at 16¼ bid, and a sale of 500 shares at this figure sent the price up to 17½. At this the sales aggregated 1,200 shares, and 500 shares were disposed of

at 184. Bidding then rose to 20, but after 1,500 shares had been transferred the stock was offered at this figure, 184 bid, at which trading closed. A letter was received by President Sturgeon stating that the ore in the tunnel was looking well, that the weather would soon admit of the working of the mill, and that it could soon be moved to the entrance of the tunnel.

Arizona was 10 bid; 14 was offered for Concepcion, 15 asked. Yuma Copper was 48 1/2 bid.

Offered at 514. Anderson was 23 bid; 1,600
I. X. L. sold at 8, the stock closing at 8½ bid;
31½ was asked for Adams, 25 bid; Gold King
was 41½ bid, 45 asked; 190 Gold Run
brought 17½; Central Silver was 30
bid, 31½ asked; Aztec was offered at 33½.
La Union was 11½ bid, 15 asked; 600 Black Oak
sold at 22½. Wire Patch was 30 bid; 25 was
asked for Golden Era, 18½ bid; 250 San Pedro
sold at 6½. Pa Murphy was 15½ bid, offered
at 16½. Hundred Adams was \$2.25 bid, \$2.55
asked. Hundred Dinero sold at 8. Queen of the
West was 17½ asked, 18½ bid. One hundred

Major Budd brought 15. Neath was offered at 17 1/2. Mountain Key was \$1.75 bid, \$1.87 1/2 asked. Eight hundred Mexican Improvement sold at 25. Mary Foster was 10 1/2 bid, offered at 11.

A circular letter was yesterday afternoon sent to the stockholders of the Cariboo by President A. B. Pendleton. It states that the interest on the bonded indebtedness, amounting to \$50,000, is now due, and that there are

to induce Mr. Ward to leave Mr. Geo. C. Spencer, who has acted as trustee for the bondholders, has agreed to waive the payment of the interest for the present, on condition that the stockholders who have not subscribed for the bonds will raise enough money to sink the Schutz mine, and continue work on the Tyler shaft. It is estimated that \$8,000 will be sufficient for this purpose. Mr. Pendleton states that the mine will be amply able to run at a profit in the spring, if the necessary work is done, and advises that subscriptions be

made within thirty days to continue the work and save the mine from forfeiture; 300 shares of the stock sold at 7½.

Who will be the next Mayor of St. Louis?

The Post-Dispatch's Parnell fund continues on the boom.

The readers of the Post-Dispatch will elect the next Mayor of St. Louis.

PRESIDENT-ELECT HARRISON journeyed safely from Indianapolis to Washington without betraying the secret of his Cabinet.

It is reported that PIGOTT has arrived in Paris and that the French police will arrest and hold him for extradition. His testimony can be no longer of any value to either side, but he may do the state some service in confinement.

The London Times had better "let the tail go with the hide." After having the only important branch of its case blown to atoms by its own witnesses, it can only expose itself to ridicule by trying to make something out of the tattered remains.

EVIDENCE of results in the search for the murderer of JOHN M. CLAYTON would be more convincing proof of the activity of the Arkansas authorities than mere reports that they are exerting themselves. Every day's delay makes the discovery of the criminal more difficult and impairs public confidence in the genuineness of the attempt to punish the guilty.

The Post-Dispatch will be the first newspaper in St. Louis to announce on the authority of Gen. HARRISON his complete list of Cabinet officers. Citizens of St. Louis may quit speculating and wait for the Post-Dispatch of Monday evening to tell them all about it. Meanwhile the Post-Dispatch will give the best available information on the subject.

STEPHEN B. ELKINS and several other intimate friends of Mr. BLAINE are given as authority for the positive statement that WINSTON has been offered and has accepted the Treasury portfolio. It is rapidly becoming manifest that when Gen. HARRISON chose BLAINE for the head of his Cabinet he assumed the whole Blaine political load. The full significance of this will be made known later.

ANOTHER murder of an unfortunate, weak girl by a scoundrel playing his villainous vocation in the guise of a physician will probably go unpunished. This community is shocked by the crime, the chief evidence of which was put under ground yesterday, its sense of justice outraged and the law against criminal malpractice is again proved to be a hideous farce. The facts are known, the criminal is known, and yet past experience has proved that it is practically impossible to secure testimony sufficient for conviction. There should be some way of ridding communities of such vermin if a law cannot be framed to punish them.

This report comes from Jefferson City that an effort will be made to have the telephone bill referred to the Committee on Municipal Corporations with a view to having a compromise amendment inserted. This amendment will fix the maximum charge for telephone service at \$75 per annum. In the investigation of the telephone business before the committee it was shown that the profits of the telephone company in this city were enormous and that telephone are furnished with reasonable profit at much less than \$18, the maximum charge mentioned in the present bill. There is no good reason to doubt the fairness of the measure as it now stands.

The action of the City Council in voting to indefinitely postpone the consideration of the surface track railway bill has the appearance of an attempt to evade responsibility. Citizens whose rights are disregarded and whose safety and property interests are threatened by the bill may well ask why it was allowed to be

main in existence as a constant menace to them. The Council's action was a condemnation of the bill. It was shown that its passage would be an outrage, but instead of squarely facing the question and killing the bill by an adverse vote on its merits it was pigeon-holed for action at some future time should the Council see fit to call it up again. The bill should be called up and defeated.

A ONE-TERM PLEDGE

There should be no hesitation in accepting as "a straight tip" from headquarters the statement that HARRISON will in his inaugural pledge himself not to accept under any circumstances a nomination for a second term.

An understanding that he would so pledge himself was probably reached before he was nominated by the Blaine influence at Chicago. And even if the giving of such a pledge was not forced upon him as a condition precedent to his nomination, it is as clearly forced upon him now by the party situation as the appointment of a Blaine Cabinet.

But whether it will secure the desired peace and harmony for his Administration and make him a successful mediator between the factions and rival aspirants of his party is not so clear. Should he even succeed in reconciling the rivalries of BLAINE, SHERMAN and ALLISON, he will find it very difficult to completely reconcile his party or the country to an administration apparently directed by STEVE ELKINS, STEVE DORSEY and the great combine of railroad influence led by STANFORD and DEWEY.

Gen. HARRISON means well and is evidently determined to do as well as his party environment will permit. But he will have to be wonderfully fortunate and display unexpected tact and capacity if he does not have more trouble with his own party than CLEVELAND had.

SENATOR DON CAMERON has wagged a hat that Gov. REDFIELD PROCTOR will be Gen. HARRISON's Secretary of the Interior. This brings a new name to the front, and it will not be long before Senator CAMERON's prophetic ability will be tested.

It is reported that PIGOTT has arrived in Paris and that the French police will arrest and hold him for extradition. His testimony can be no longer of any value to either side, but he may do the state some service in confinement.

TRAGIC STORY OF THE DEATH OF PRINCE RUDOLPH AND BARONESS VETTERA.

Skeletons of Vienna's Court—Doubtless the most dramatic and sensational tragedy in the annals of the empire was the death of Prince Rudolf and Baroness Vettera.

At his books he was very clever, and in addition to the empire he was a good linguist. He was a man of letters and a man of action. He was a man of letters and a man of action.

Up to his marriage the Crown Prince played no part in public life and nothing was known of him to the public. He was a man of letters and a man of action. He was a man of letters and a man of action.

TRAGIC STORY OF THE DEATH OF PRINCE RUDOLPH AND BARONESS VETTERA.

Skeletons of Vienna's Court—Doubtless the most dramatic and sensational tragedy in the annals of the empire was the death of Prince Rudolf and Baroness Vettera.

At his books he was very clever, and in addition to the empire he was a good linguist. He was a man of letters and a man of action. He was a man of letters and a man of action.

Up to his marriage the Crown Prince played no part in public life and nothing was known of him to the public. He was a man of letters and a man of action. He was a man of letters and a man of action.

He was a man of letters and a man of action. He was a man of letters and a man of action. He was a man of letters and a man of action.

He was a man of letters and a man of action. He was a man of letters and a man of action. He was a man of letters and a man of action.

CHRISTIAN ENDEAVOR.

SIXTEENTH UNION MEETING OF THE ST
LOUIS SOCIETIES LAST EVENING.

Brief Sketch of a Movement Which Was Begun Eight Years Ago and Which Now Numbers 7,000 Societies and 400,000 Members—The Half-Hundred Societies in

HE sixteenth annual meeting of the St. Louis Societies of Christian Endeavor was held last night at the Grand Avenue Presbyterian Church, Fresno and Washington avenues. When Prof. A. J. Healy struck the first notes of the organ voluntary, at a few minutes past 8 o'clock the church was completely filled with young people from every part of the city, and they continued to come until the sanctuary was full, and the doxology had been sung, there was scarcely a pew in the church remaining vacant. After a brief reading from the Scriptures, Rev. J. D. Johnson, D. D., gave the invocation and the opening address. He first extended a cordial welcome in behalf of the members and officers of the church and went on to say that he felt like the young men and hands over the heads of the young people assembled, and that he felt like the churches of St. Louis, calling down a benediction upon them for what they had accomplished.

The Christian religion, he said, was a fountain of perpetual youth, through the virtue of whose waters old age became a second childhood. In conclusion he invoked a blessing on the meeting and the future work

followed by the reading of letters from prominent Christian Endeavor workers in various parts of the country. The letters read were from S. W. Adriance, Lowell, Mass.; C. B. Holdredge, Bloomington, Ill.; James L. Hill,

FROM PRESIDENT CLARK.

The following is an extract from the letter of Rev. Francis E. Clark, President of the United Societies of Christian Endeavor, and shows

"For some reason the Christian Endeavor plant, though growing in all parts of the country, and growing vigorously, too, seems to have taken deep root and produced more abundant fruit in some places than in others. St. Louis is one of the places where the best work

great success, I am sure, is due to consecrated lives and zealous efforts on the part of individual young people. Here in Boston we look to St. Louis for ideas, and frequently hold up the work as there accomplished as a model to other parts of the country.

There was another selection by the choir and then the roll was called. As the name of each church was called by the Secretary, its representatives rose to their feet and sat down again. It made a novel scene as, now in

ture floor they "boomed" up and down. An exceedingly well written paper on "How to Interest Young People in Missionary Work," was read, and after another hymn and benediction Prof. Robyn played the "Alpine Storm" with splendid effect, the house being darkened. A social was

Mysterious Stabbing Affray.

Officer Martin was called into the drug store at the southwest corner of Blair and Cass avenues at 5 o'clock last evening, where he found Thomas Quigley, aged 29 years, and another man lying on the sidewalk. One of two women in the middle of the head. One was a gash about three inches long over the forehead. The other woman was also injured. He claimed that he had been assaulted by the two parties unknown to him. Further information could be gleaned from the witnesses because they were so badly stunned and he was removed to the City Dispensary.

A Well-Known Mine Operator Dead.

SAN FRANCISCO, February 27.—Seth Cook, well-known Concha mine operator, died yesterday morning suddenly yesterday. He had been ill in poor health for months. He and his brother Daniel became interested in 1887 in the Concha mine, which has since become one of the largest silver-mining camps in the world. They developed a number of rich veins and have made several hundred thousand dollars. They also owned a large stock deal in this city with
